Three Women and Man Found

Dead; Fumigating Gas Fatal
CLEVELAND, Oct. 24.—Three women and one man were found dead in an East End apartment building here late to-day, the victims, police say, of asphyxiation caused by fuminating gas. They had been dead apparently for twelve hours.

According to the authorities, fumigation was started in a restaurant which occupied the first and second floors of the building late last night. The gas is believed to have seeped through the floors and up a dumb waiter connecting the upper stories and caught the tenants without warning.

Escape Through Window
BEDFORD, N. Y., Oct. 24. — Four
prisoners escaped early this morning
from the State Reformatory for Women
here. They are still at large.

A matron had unlocked the door to
the cellar in the Lowell dormitory to
permit coal to be put on the fire. She
stood guard at the top of the stairs,
but was called from her post by the
telephone bell.

During her brief absence Mildred
Ross and three other prisoners ran into
the cellar and climbed out through a
window. None of them had hat or
coat and it is believed the chill weather
will drive them back.

Is It Worth It?

The desire to make something besides the interest when you invest your money has lured many to loss and poverty.

There is nothing so sure to lead to wealth and comfort as interest regularly earned and saved, with no losses to charge against it.

The safe and proper way to accomplish this end is through the purchase of Guar-

Soon after the saloon and second cabin passengers on the America came ashore in Hoboken a group of pier detectives employed by the company appeared among the travelers with rifles. The passengers protested against their presence there with londed arms and the custom officials in charge of baggage examination protested to the steamship officials.

The passengers were informed that the armed guards were necessary, as the vessel had been robbed of \$6,000 worth of cargo on her last trip to this port.

The customs officials said that such a guard was not necessary while the men of the customs force were incharge of the pier, and that the presence of the rifles was annoying to the passengers, particularly to the women travelers, who had protested against the guards sitting on their baggage.

Senator Penrose declared that by having continuous sessions, Senators who desired to discuss the "shortcomings" of the Federal Reserve Board, the "iniquities" of Wall Street and other such subjects could do so between "4 a. m. and daybreak" without "delaving action on the tax bill."

The first tax amendment defeated today was that by Senator Gerry, Democrat, of Rhode Island, proposing that the normal tax rates be 2 per cent on the first \$5,000 of income, 4 per cent on the second \$5,000, 6 per cent on the third \$5,000 and 8 per cent on all over \$15,000. Harris Proposal Also Beaten Harris Proposal Also Beaten

The second amendment was by Senator Harris, Democrat, of Georgia, proposing that the rate on the first \$4,000 of "earned" income as distinguished from "unearned" income, be 4 per cent, and the rate on the second \$4,000 description of the rate on the second \$4,000 description of the rate on the second \$4,000 description of the rate on all over that a sper cent. The vote was 35 to 22, two Republicans, Borah and La Follette, joining with the solid Democratic minority in supporting the amendment. The third roll call was on an amendment by Senator Walsh, Democrat, of Massachusetts, proposing a 8 per cent the Nauticus Company, Inc., publisher of the marine periodical "Nauticus." and its editor. Captain Randall complained that he was injured by an article printed in the publication.

This was defeated, 32 to 21, one Republican, La Follette, supporting it.
After the Gerry amendment had been defeated Senator Lenroot, Republican, of Wisconsin, put into the record a statement designed to show that the amendment would aid men of large incomes to a greater degree than it would those with small or moderate incomes, and that the increased exemptions to heads of families and on account of dependents, proposed to be granted, would reduce the taxes on individuals receiving \$5,000 or less in proportion to the reductions granted under the surtax rates adopted Saturday.

WASHINGTON, Oct. 24.—Three separate proposals carrying reductions in the taxes on individuals having moderate incomes were voted down to-day by the Senate by overwhelming majorities. Discussion of them led to a hot political fight which culminated in an announcement by Senator Penrose, of Pennsylvania, in charge of the tax are revision bill, that on Wednesday there

lature when a row develops among members.

Senator Reed made a long reply, with many interruptions, as to the relevancy of the discussion, declaring that debate had resulted in repeal of all the transportation taxes, the saving of \$65,000,000 in surtaxes and \$75,000,000 in corporation capital stock taxes. This had been worth all the discussion, he said.

Senator Watson, of Indians, wanted to know why, if the bill would ruin the Republican party, as the Democrats asserted, the minority objected to the majority party "committing suicide."

The Missouri Senator replied that before suicides there frequently were murders, and that he did not want the American people "murdered" while the Republican party was "committing suicide."

Mr. Clément sang all the pieces set down on 'his program with the same exquisite finish of style, the same delightful art which holds all thought of art aloof, the same purity of diction, the same blending of poetic and melodic declamation, the same charm of voice and manner which won the admiration of music lowers when he sang at the first season of opera at the New Theater and has kept them his devotees ever since. When loveliness rested upon all that he did it is unnecessary to particularize; it will serve to characterize the spirit of the evening to record that after singing César Franck's exquisite "Mariage des Roses" he was asked for more and again more, and gave it, and after two performances of the dream song from Massenet's "Manon" and an air from the same composer's "Grisélidis" the list had to be extended again. Repetitions and additions were the order of the day.

TN ANNOUNCING the addition of Dr. Spieker's Bulgarian Yoghurt to the list of Sheffield Milk Products, I believe we are offering a factor in milk service that deserves to rate in importance, as a health measure, with Pasteurization and Certified Milk. I have watched the growth of interest in fermented milk from

the time when Prof. Metchnikoff startled the world with the statement that the reason so many Bulgarian peasants lived past the century mark lay in the fact that they used fermented milk as a part of their daily food. Metchnikoff contended that premature old age was due, in most write to Sheffield cases, to putrefactive organisms in the intestines. These organisms Farms 524 West elaborate poisons which, when absorbed into the glands and blood

stream, cause hardening of the arteries, neuritis, rheumatism, autointoxication and an endless number of ailments that can only be relieved by properly disinfecting the alimentary tract. He demonstrated that the Bacillus Bulgaricus, found in Bulgarian Yoghurt, accomplished this by destroying the offensive bacteria in the intestines, and when taken regularly kept the bowels in

a clean, healthy state, with a consequent beneficent influence on the entire human machine. Many efforts have been made to introduce a true Bulgaricus culture into this country, but, I am told by physicians, with unsatisfactory results. The chief difficulty has been due to the fact that after a time the original culture lost its virility and ceased to

function as a true Bacillus Bulgaricus. I have now solved this problem. Regularly, by parcel post, a fresh, active, virile culture is sent to us, direct from Bulgaria. By this means you are able to enjoy the same potent product that has

been credited with such marvelous results in the land of its origin. Dr. Spieker's Yoghurt is unlike any fermented milk you know. In consistency it suggests custard, and is to be eaten with a spoon. In taste it has a mellow, cream-like flavor that lends itself to the addition of sugar, cinnamon or fruit juices, though I believe most

folks will like it just as we make it. It is sold in 7-oz. sealed jars and after its receipt at the home should be kept cold.

Eat a jar a day. A business man can have it left at his office. Eat it in midafternoon or before lunch. For the folks that stay at

home it can be taken at meal time or any other hour. So far as I know, this is the first time a true Bulgarian Yoghurt has been offered you. I know the possibilities for good in this product are unlimited.

Try it at home or at your office. You will like it at once and in a short time note some very astonishing results.

I have prepared an interesting booklet on Dr. Spieker's Yoghurt which I will send if you will write me a postal card with your address. LOTON HORTON, President,
